

Series I and II Toothbars

for Caterpillar® Skid Steer Loaders

Easily and quickly convert General and Multipurpose Buckets to Penetration Buckets

Series I Toothbars fit buckets having no bolt on cutting edge or teeth.

Series II Toothbars fit buckets equipped with bolt on cutting edges.

CATERPILLAR®

Series I and Series II Toothbars:

- Increase utility of General Purpose and Multipurpose buckets
- Provide excellent, long-lived penetrating ability
- Eliminate need for a separate, toothed bucket
- Easily attached and removed, using only two bolts
- Completely protect underlying base or cutting edge and corners
- Fit new or used Cat® buckets
- Fit bucket widths of 60", 66", 72", 78" and 84"
- For installation instructions, see your Cat Dealer

Integral teeth of hardened Half-Arrow material:

- Eliminate need for replaceable teeth and adapters
- Greatly reduce maintenance and service cost
- Provide easy penetration in stubborn material
- Made for high performance over a long working life
- Do away with inefficient "gap-tooth" digging caused by lost teeth
- Promote even tooth wear
- Covered by Caterpillar GET Warranty against breakage

Series I and II Toothbars have the following advantages over other offerings:

- Teeth that run the entire length of the bucket
- Bucket corners protected from abrasion and impact forces

The Series I Toothbar was designed specifically to prevent bare base edges from scalloping. Series II was made to give added protection to bolt-on edges. The result of these designs is to give longer bucket and edge life—which leads to greater digging efficiency.

General Purpose and Multi-purpose buckets become penetration buckets in minutes, using two bolts to mount Cat toothbars. They stay firmly in place in the toughest conditions, and can be removed as easily.

Series I and II Toothbars for Caterpillar® Skid Steer Loaders

The Toothbar pictured had over 600 hours and still has significant wear life remaining.

CAT® DEALERS DEFINE WORLD-CLASS PRODUCT SUPPORT.

We offer you the right parts and service solutions, when and where you need them.

The Cat Dealer network of highly trained experts keeps your entire fleet up and running to maximize your equipment investment.
